

Ellie Kuzmanovic
Director of Operations
E-7 Home Care

Ellie Kuzmanic's personal and professional journey has been very vibrant and dynamic. Originally from Belgrade in Serbia, Ellie spent the first half of her life raising a family and running a family-owned real estate and development business. Her dream of living in Florida opened new career opportunities in the field of home care and nursing. Once she connected to her true passion, that of helping and serving others, Ellie found her calling.

As a Director of Operations at E7 Home Care Ellie takes pride in delivering care with compassion, dignity, and respect. In this role, she is able to combine her expertise in business, accounting and administration with patient care knowledge.

Over the past 20 years, Ellie has personally helped countless families and patients by providing companion care, personal care and skilled nursing services. This hands-on experience gave her the tools to oversee all nursing cases and coordinate care with case managers to ensure the highest quality of care.

As one of Ellie's core values is giving back to the community, she spends her weekends volunteering at Broward Health Medical Center, and her Serbian Church, and helping nonprofit organizations during some events. In her free time, Ellie enjoys spending time with her family, especially her grandchildren. She spends summers in Europe and enjoys exploring new cultures. She is currently learning the Italian language as she prepares for her annual summer adventure in Italy.
