

Bonnie Beinhorn

Area Owner

Senior Care Authority

Senior Living and Care Solutions

Bonnie Beinhorn brought her skills and compassion for helping families when she opened the Broward County location of Senior Care Authority, a leading company in finding the right care and living solutions for seniors throughout the U.S. It is an area she is very familiar with, having moved here in 1981, and a purpose she is passionate about.

From personal experiences with her own aging family members, Bonnie understands that finding the right senior living community can be a very time-consuming, confusing, and stressful process. There are many options to explore, and she knows how valuable it is to have support and assistance in navigating the challenges.

Following a career in health care and human resources, Bonnie knew this was an ideal fit for her goals and it would fill a need in the community. As a life-long learner, Bonnie is continuously expanding her knowledge and expertise. She has earned B.S. and M.B.A. degrees with honors and completed a Graduate Program in Mediation and Conflict Resolution. Her credentials also include the designation of Senior Professional in Human Resources (SPHR), Certified Dementia Practitioner (CDP) and Certified Senior Advisor (CSA.)

Bonnie has always been actively involved in the community, volunteering her time with worthwhile causes for people and pets. She was a former Program Chair for BCOA and currently serves on the board as a BCOA Ambassador.
