

Eileen Maastricht Maastricht Law Offices

Eileen Maastricht is the owner of Maastricht Law Offices, specializing in all things elder law, especially Medicaid for long-term care, probate, and wills & trusts. Based in Coral Springs, she represents clients in all Florida counties. She identified her favorite case type as Medicaid planning, which involves helping seniors qualify for Florida's Medicaid long-term care program. Florida is the most generous state in the country with this program and it can bring a huge relief to seniors and their families.

Eileen grew up in Miami, went to college at Arizona State University, and law school at DePaul University in Chicago. Though she's had many professional successes, Eileen's greatest accomplishment is adopting her daughter from foster care as a newborn. Now 9 years old, she shares a full and busy life together with her mom, enjoying all of the family events and venues throughout South Florida, and traveling to the Eastern Shore in the summer.

As an avid reader, Eileen especially likes historical fiction and all of the great works of the Catholic Saints. She loves to cook healthy meals, and prior to parenthood, worked out 6 days a week. That is more like 3-4 days a week now, but she's always looking for spots to get in another workout.
