

Denny Devlin

Happier at Home

Hi, my name is Denny and I want to share with you a little bit about myself for the BCOA Member Moment.

I grew up in Marietta, Ga and have been in South Florida since 2009. I met my wife when I lived in Delray and have been happily married for 13 years. We have a 6-year-old son who keeps me very busy when I'm away from work. I opened up a private duty agency, Happier at Home Fort Lauderdale, in December of 2025 after spending 25 years selling medical supplies.

I found out about non-medical homecare when my father got sick a few years ago and went through the entire emotional process with my parents of them having to accept that they needed help. This spark started a fire in my heart and made me realize that helping to protect our seniors was my calling in life. Within our own agency, I personally interview each caregiver to ensure they are someone that I would let watch my own mother. We are an agency that offers care that includes integrity as every senior deserves to be cared for as if they were family.

I love sports, fishing and you can find me spending time with my family when I'm not working.

Thanks for reading,
Denny
